# Luis Medina

## FrontEnd Developer and Web Designer

📞 (+506) 6110 2060  ✉️ luisgmedina44@gmail.com  🌐 github.com/AslanLM

## SOBRE MÍ

I am a highly motivated and dedicated Systems Engineering student, passionate about the constant pursuit of new opportunities to gain experience and achieve significant personal and professional growth. My ability to adapt easily to new and challenging situations is one of my main strengths. My focus is on web development (front-end), where I aim to apply my skills and passion to drive the creation of exceptional web experiences and be part of innovative projects in this exciting field.

- Creativity
- Attention to Detail
- Adaptability
- Patience

## HABILIDADES TÉCNICAS

- HTML
- CSS
- JAVASCRIPT
- REACT.JS
- GSAP
- C#
- .NET
- NODE.JS
- MONGODB
- SQL SERVER
- GIT

## IDIOMAS

- Español ~ nativo
- Inglés ~ B2
- Italiano ~ A1

## PROYECTOS

*Todos los proyecto se pueden encontrar con mas detalle en mi repositorio github*

### PORTFOLIO

My portfolio project is more than just a collection of works; it represents my journey in the world of technology and my passion for web development. HTML/CSS/JS.

### CLINIC SYSTEM

The website for a clinic, where I've had the opportunity to develop both the frontend and backend using ASP.NET technology.

### SUPERMARKET SYSTEM

In this project, I focused more on the frontend, creating two distinct sections—one for managing the page and another for client interaction with the content. Developed using ASP.NET.

## EDUCACION

**Ingenieria en sistemas**

Universidad latina
Present
